

AUTO CUTTING MACHINE LWQ2000-8000C

Characteristics:

- The main frame of this machine is welded from square profile steel with strong structure, high strength and no deformation.
- This machine has horizontal, vertical and portrait cutting devices, it can realize 3-direction cutting, which improves production efficiency. It is specially applicable to block cutting.
- This machine applies converter speed governing, which makes stable moving, and large range of step-less speed governing accordingly. Guide-rail drive makes cutting trim and flat. It applies motor-decelerator integrating system, which lowers the noise, has high practical value.
- Voltage: applies large power transformer, which promotes the speed of cutting and lengthens service life.
- This machine applies cutting retract device, which can shorten 3-10 mins when replace.
- This machine applies multi-wire cross cutting setting, which can cut the block to 3mm.

TECHNICAL DATA:

CUT HORIZONTAL, SIDEWAY AND VERTICAL AUTOMATICALLY.

ITEM		LWQ-3000C	LWQ-4000C	LWQ-6000C
Max Cutting Size(mm)		3000x1250x1250	4000x1250x1250	6000x1250x1250
Heating Wire	Transverse	60pcs	60pcs	60pcs
	Vertical	60pcs	60pcs	60pcs
	Lengthways	20pcs	20pcs	20pcs
Working Speed		0~2m/min	0~2m/min	0~2m/min
Connected Load		35kw	35kw	35kw
Overall Dimension(mm)		5800x2300x2600	6800x2300x2600	8800x2300x2600
Weight		2000kg	2500kg	3000kg
